Under the “Funding Scheme to Support Transitional Housing Projects by Non-government Organisations”, operating organisations should allocate not less than 80% of the units in a project to persons who have waited for traditional PRH for not less than three years (i.e. Category A tenants). Besides, operating organisations may formulate their own detailed criteria having regard to their service features, and reserve not more than 20% of the units for other categories of applicants (i.e. Category B tenants), e.g. persons/families living in inadequate housing or with urgent need for community support (including those who have undergone a sudden change in family situation), etc. According to the existing mechanism, if operating organisations encounter practical difficulties in recruiting tenants, they may submit relevant information and data to the Housing Bureau and apply for adjusting the tenant ratio.

2. In line with the policy objective of promoting fertility, families with babies born on or after 25 October 2023 and having been waiting for traditional PRH for not less than two years are eligible for Category A application for transitional housing. The arrangement is effective from 1 December 2023 and the applicants are required to submit the application for transitional housing before the baby reaches the age of one.

3. Regarding the recruitment and selection of Category B tenants, operating organisations should consider the following factors:

- (a) All married persons listed on the application form must apply together with their spouses unless they have been referred by a social worker for urgent housing needs due to family problems.
- (b) In general, the total monthly household income and total household net asset value of the applicant’s family must not exceed the limits in respect of application for PRH laid down by the Hong Kong Housing Authority. Such limits are subject to review annually. For special cases, the operating organisations may review and consider the cases based on the actual circumstances of the applicants.
- (c) Operating organisations should comprehensively consider the application if there are any elderly, children under 18, persons with disability and/or family members with other special needs in the household;
- (d) The applicant must have a pressing housing need (to be assessed by the respective operating organisations based on the applicant’s actual circumstances), such as having met one or more of the following criteria:
  - i. residing in poor conditions;
  - ii. experiencing housing urgency (e.g. encountering domestic violence, natural disaster, unemployment, sudden eviction);
  - iii. having physical and/or mental health issues (e.g. chronic illness, previous stroke); or
  - iv. having been assessed by a social worker as in urgent need of community support and recommended for transitional housing.
