17. Part VI – Basic Selection Criteria Guidelines for “Category C Tenants”

Under the “Funding Scheme to Support Transitional Housing Projects by Non-governmental Organisations” (Funding Scheme), operating organisation(s) should allocate units based on approved quotas for Category A, B and C tenants. “Category A Tenants” are individuals who have been on the PRH waiting list for at least 3 years; “Category B Tenants” refer to other types of individuals, including those living in inadequate housing or with urgent community assistance needs (e.g. sudden family changes); while “Category C Tenants” are individuals/families having lived in subdivided units consecutively for at least six months before applying for transitional housing and being affected by the Basic Housing Unit regulatory regime. Priority is given to “Category A tenants” and “Category B tenants”, and only if vacancies remain after all applications from such individuals have been processed, the operating organisation(s) may, in accordance with the established procedures, review and allow eligible “Category C tenants” to move into transitional housing. In any case, “Category C Tenants” must not exceed 20% of the total units of a project.

2. Regarding the recruitment and selection of “Category C tenants”, operating organisation(s) of the project(s) should consider the following factors:

- (a) All married persons listed on the application form must apply together with their spouses unless they have been referred by a social worker for urgent housing needs due to family problems.
- (b) The total monthly income and total net asset value of the Category C tenants will be exempted from meeting the limits in respect of application for PRH but no more than the limits of “Well-off Tenants Policies” (i.e. five times of the income limits and 100 times of the assets limits in respect of application for PRH laid down by the HA, which are subject to review annually).
- (c) The minimum tenancy period for “Category C Tenants” is 1 month, while the maximum generally shall not exceed 2 years. “Category C tenants” shall pay the original rent of the transitional housing project in the first 12 months of residence. Upon completion of the 12-month residence, they may apply for two extensions. For the first extension (i.e. 13th - 18th month of residence), upon assessment by the operating organisation, “Category C tenants” who are still in imminent re-housing need may be granted a 6-month extension of lease, but they will be required to pay 1.5 times of the rent. For the second extension (i.e. 19th - 24th month of residence), upon assessment by the operating organisation, “Category C tenants” who are still in imminent re-housing need may be granted a further 6-month extension of lease, but they will be required to pay double rent. **In addition, “Category C tenants” with a residence period of only 1 to 6 months may be required to pay an additional cleaning/administration fee to the relevant operating organisation (though this fee will not exceed half a month's rent for the relevant unit, and will be clearly stated in the tenancy agreement); and**
- (d) Applicants must have an urgent housing need (assessed by the respective operating organisation(s) of the project(s) based on their circumstances), currently reside in a subdivided unit and are affected by the Basic Housing Unit regulatory regime, and have consecutively lived in a subdivided unit for at least six months before the application. The operating organisation(s) may consider one or more of the following criteria to assess and prioritise applications:
 - i. residing in poor conditions;
 - ii. experiencing housing urgency (e.g. no suitable accommodation in private market);
 - iii. having elderly, children under the age of 18, persons with disabilities, and/or members with other special needs in the households;
 - iv. having physical and/or mental health issues (e.g. chronic illness, previous stroke).

3. The operating organisation(s) of the project(s) may consider whether the applicant’s normal life (including work ability) is severely affected by his/her health condition (such as (i) being a renal patient in need of continuous ambulatory peritoneal dialysis at home; (ii) being a hyperactive patient; (iii) being a tetraplegic patient; or (iv) requiring non-temporary indoor use of wheelchair, etc.) in determining the application priority.
