

What is Light Public Housing ?

To fill the short-term gap of public housing supply and to improve the living conditions and quality of people living in inadequate housing at the soonest, Light Public Housing (LPH) will be built under a Government-led approach. The first batch of about 2 100 LPH units will be completed in 2024-25, and the construction of a total of about 30 000 units will be completed by 2027-28.

LPH mainly caters for applicants who have been on the waiting list for traditional public rental housing (PRH) for three years or more, with priority given to family applicants.

Design

Each LPH unit will be provided with a self-contained toilet, a shower area and open cooking space, and equipped with basic facilities such as an electric water heater and an exhaust fan. The internal floor area of standard units mainly spans from about 14 to 32m². The units will come in different sizes for families ranging from one to two persons, three to four persons, and four to five persons.

Self-contained toilet

Shower area

Open cooking space

Electric water heater

Exhaust fan

Browse the relevant webpage by scanning the QR code on left for more information of LPH. Please stay tuned, more LPH information will be provided in the coming future.

Estimated Rent

The rent is set at around 90% of the rent of newly completed traditional PRH in the same district. Depending on the size of the units and the district, and based on the latest rents of traditional PRH in October 2024, the monthly rents of LPH are preliminarily estimated as below.

No. of persons in the unit	Area (m ²)	New Territories	Urban
1 - 2 persons	About 14	About \$880	About \$1,290
3 - 4 persons	About 26	About \$1,620	About \$2,400
4 - 5 persons	About 32	About \$2,000	About \$3,000

Note 3: The size of the units in the school conversion projects will vary.

Operation

Operation, management and daily maintenance of LPH will be undertaken by experienced organisations. Basic services and ancillary facilities such as retail shops, laundrettes, study rooms, function rooms, as well as recreational and community services, etc. will be provided to the residents as appropriate. We have worked with the Transport Department to implement appropriate transportation arrangements for LPH to provide a comprehensive public transportation network at reasonable service levels.

Application

LPH application will be opened by phases. The Housing Bureau will proactively send invitations to all eligible applicants and invite them to apply for LPH. Applicants can submit the paper application forms or choose to apply online directly. The first phase of application, which comprises Yau Pok Road at Yuen Long and Choi Hing Road at Ngau Tau Kok, has commenced since June 2024. The Housing Bureau will announce the application details of the remaining projects in due course.

LPH residents can retain their position in the queue for the traditional PRH, but they will no longer be eligible for the allowance under the Cash Allowance Trial Scheme.
